## **Document Translation Program Plan for Fiscal Year 2002-03**

### **I. Issues**

Should the Board approve the Document Translation Program Plan for Fiscal Year 2002-03?

### **II. Staff Recommendation**

Approve the recommended program plan for Fiscal Year 2002-03 (Attachment 1). This plan includes the revision of 22 translated publications and the addition of one publication in a new language—Russian.

### **III. Other Alternative(s) Considered**

Alternative 1: Approve the program plan for Fiscal Year 2002-03 which meets the Board's directive and includes 22 revisions and one publication each in six new languages—Russian, Thai, Urdu, French, Hebrew, and Laotian (Attachment 2).

Alternative 2: Translate BOE publications only into those languages that fall within the criteria as established by the Dymally-Alatorre Bilingual Services Act. This would include only languages that meet the 5% public contact rate or higher (Attachment 3).

## **IV. Background**

During the June 2001 Customer Services and Administrative Efficiency Committee Meeting, the Board directed staff to implement the document translation plan as it was presented for Fiscal Year 2001-02 and to report back with both a plan for Fiscal Year 2002-03 and a year-end status report.

The Board also directed staff to publish an article advertising the availability of translated publications in the Board's *Tax Information Bulletin* and create a Spanish link on the home page of the BOE Internet website. Attached are the following documents:

- ◆ Recommended Document Translation Plan for Fiscal Year 2002-03 (Attachment 1).
- ◆ Alternative 1 Document Translation Plan for Fiscal Year 2002-03 (Attachment 2).
- ◆ Alternative 2 Document Translation Plan for Fiscal Year 2002-03 (Attachment 3).
- ◆ Status Report for Document Translation Program for Fiscal Year 2001-02 (Exhibit 1).
- ◆ Document Translation Usage Rates for Fiscal Year 2001-02 (Exhibit 2).
- ◆ Fiscal Year 2001-02 analysis used to determine which English publications with the highest usage rates are most cost-effective to translate into Chinese, Korean, Spanish and Vietnamese (Exhibit 3).
- ◆ State Personnel Board's (SPB's) 2002 list of newly identified languages (Exhibit 4).
- ◆ March 2002 *Tax Information Bulletin* Article (Exhibit 5).
- ◆ A copy of the new Spanish web text on the BOE Internet home page (Exhibit 6).
- ◆ A copy of one of the translated Small Business Fair posters (Exhibit 7).

Based on the Board-approved methodology, the majority of the document translation funds are dedicated to updating existing publications that meet and/or exceed the annual usage requirement of 500 (Exhibit 2). These revisions are given first priority as they usually reflect changes in the law. The following table shows the increasing percentage of the budget allocation needed to keep revisions current.

**Table 1**

Year	No. of Publications	No. of Revisions	Revision Cost	Budgeted Amount	% of Budget
1999-00	29	7	\$7,396	\$36,000	21%
2000-01	58	18	\$28,039	\$42,000	67%
2001-02	73	13	\$25,759	\$42,000	61%
2002-03	74	22	\$41,063	\$42,000	98%

Remaining funds are allocated every other year between (1) translating additional publications into the four target languages currently serviced by the Board (Chinese, Korean, Spanish and Vietnamese) and (2) translating publication 33, *Making Sales in California* into newly identified (non-target) languages.

Three basic components—cost effectiveness, public requests, and field staff requests are combined to make up the list of additional publications to be translated into Chinese, Korean, Spanish and Vietnamese.

**FORMAL ISSUE PAPER**

- ◆ Cost-Effectiveness—The top 50 English publications are analyzed and ranked using the Board approved cost-effectiveness methodology (see Exhibit 3 for current ranked list). This cost-effectiveness methodology basically compares the estimated cost of translating a document to the estimated cost of a bilingual employee's time to explain the information contained in the document.
- ◆ Input from Public—All public requests are given consideration as special requests.
- ◆ Input from Field Staff—Special requests from field staff are always given consideration. During non-SPB language survey years, an internal survey is used to gather input from field staff regarding most needed translated publications.

With the aid of the Assistant Chief of Field Operations, these requests are then weighted and ranked. Last year, all funds remaining after revisions were complete were dedicated to these publications.

In 1973, the Dymally-Alatorre Bilingual Services Act mandated that State agencies directly involved in providing public services employ "a sufficient number of qualified bilingual persons" and/or translate forms and publications determined to be necessary for the public to do business with those agencies. Non-English populations that make up 5% or more of the groups served should be provided with the same level of service as English speakers. Spanish is the only language identified by SPB that meets the 5% criteria at the Board of Equalization (BOE).

At the inception of the Translation Program, it was determined by the Board that BOE would not only meet the minimum requirements but would also provide services in the top four most spoken languages which were Chinese, Korean, Spanish and Vietnamese. Only those translations with annual usage of 500 or more are updated following each English revision.

Legislation established that the SPB's Statewide Language Survey, conducted every other year, would be the means by which the Board would identify new languages. The SPB survey is conducted for two, non-sequential weeks during which employees tally, by language, each contact they have with taxpayers. Once the results have been compiled and published, as they were this year, the Board is provided with a list of languages expected to be encountered in the coming years.

Previously the Board directed that the program be expanded to address the importance of adding other languages, in addition to the four target languages. This would ensure that the most basic information would be provided to all taxpayers doing business with BOE. In Fiscal Year 2001-02, the SPB Language Survey identified 13 new languages (Exhibit 4). Only six of the 13 were measurable above 1%. This year, after revisions are completed, any remaining funds will be dedicated to translating documents into these newly identified languages.

## **V. Staff Recommendation**

Approve the Document Translation Program Plan for Fiscal Year 2002-03, which includes revisions to 22 existing translated publications and the addition of one publication in a new language—Russian (Attachment 1).

### **A. Description of the Staff Recommendation**

Staff has used the approved methodology to determine the order in which documents should be translated for the upcoming fiscal year. The adopted methodology identifies revisions to existing translations as first priority; publications in new languages as second priority; and new publications into one of the four target languages as third priority.

In Fiscal Year 2002-03, 22 existing translated publications will require revision. Translations are scheduled for revision immediately following the update of the English version. As with English

**FORMAL ISSUE PAPER**

revisions, BOE updates the translated publications to keep the information accurate and current, particularly when law changes occur. Therefore, revising existing translated publications is always given first priority. These revisions will cost approximately \$41,063, which is 98% of the current translation budget of \$42,000.

The remaining 2% of this year's budget will be used to translate publication 33, *Making Sales in California*, into the newly identified language—Russian. Based on the SPB Language Survey, BOE's highest new non-English public contact was Russian, at 4%.

**B. Pros of the Staff Recommendation**

- ◆ Meets the current program baseline without requiring additional funding.
- ◆ Accommodates all needed revisions to existing translated publications.
- ◆ Allows staff to add one publication in a new language (Russian).

**C. Cons of the Staff Recommendation**

- ◆ Will meet the Board's directive over time but not within this fiscal year. No funds are available to translate the remaining five languages identified in the Fiscal Year 2001-02 SPB Language Survey (Exhibit 4).
- ◆ No funds remain to address any other project or special request during the fiscal year without negatively impacting the revisions to existing translated publications. (Example: Changes to Small Business Fair announcements; Spanish BOE Internet web page, etc.).
- ◆ No funds remain to translate additional publications into the four target languages (Exhibit 3).

**D. Statutory or Regulatory Change**

None.

**E. Administrative Impact**

None.

**F. Fiscal Impact****1. Cost Impact**

None. The recommended program plan would continue at the current established Translation Program budget level of \$42,000.

**2. Revenue Impact**

None.

**G. Taxpayer/Customer Impact**

- ◆ Would provide customers with updated information in existing translated publications.
- ◆ Would provide the Russian community with an introductory publication explaining the Board and its services.

**H. Critical Time Frames**

None.

## **VI. Alternative 1**

### **A. Description of the Alternative**

This alternative Document Translation Program Plan for Fiscal Year 2002-03 meets the Board's directive and includes the revision of 22 existing translated publications and an introductory publication, publication 33, *Making Sales in California*, in all six measurable newly identified languages (Russian, Thai, Urdu, French, Hebrew, and Laotian). This would require an augmentation of \$6,408 to the Fiscal Year 2002-03 Translation Program budget (Exhibit 4).

### **B. Pros of the Alternative**

- ◆ Supports the Board's directive of having an introductory publication available for every public contact language.
- ◆ Adds all six measurable languages newly identified in the SPB Language Survey to BOE's Translation Program.
- ◆ Accommodates all needed revisions to existing translated publications.

### **C. Cons of the Alternative**

- ◆ Requires an increase of \$6,408 to the Fiscal Year 2002-03 Translation Program budget.
- ◆ No funds remain for translation of new publications into the four target languages (Exhibit 3).
- ◆ No funds remain to address any other projects or special requests. (Example: Changes to Small Business Fair announcements, Spanish BOE Internet web page, etc.)

### **D. Statutory or Regulatory Change**

None.

### **E. Administrative Impact**

None.

### **F. Fiscal Impact**

#### **1. Cost Impact**

Would require a \$6,408 augmentation to the Translation Program budget for Fiscal Year 2002-03.

#### **2. Revenue Impact**

None.

**G. Taxpayer/Customer Impact**

Will provide customers with updated information in existing languages and publications. Will also provide an introductory publication explaining the Board and its services in the six new languages identified by the Fiscal Year 2001-02 SPB Language Survey.

**H. Critical Time Frames**

None.

**VII. Alternative 2****A. Description of the Alternative**

Follow the Dymally-Alatorre Bilingual Services Act to the letter and only translate publications into languages where the SPB Language Survey shows a contact rate equal to or greater than 5%. At this time, all translated publications in languages other than Spanish would be discontinued, eliminating associated costs (Attachment 3).

**B. Pros of the Alternative**

- ◆ Fully meets the intent of the law.
- ◆ An increased amount of the Translation Program budget becomes available for new Spanish publications.
- ◆ Does not require augmentation of the Translation Program budget.

**C. Cons of the Alternative**

- ◆ Does not meet the Board directive to have an introductory document available in each language spoken by the taxpayers we serve.
- ◆ Actual usage rates show a demand for publications in languages other than Spanish.
- ◆ Does not provide written translated information to the diverse business community in California.
- ◆ May result in lower tax compliance by registered business owners.

**D. Statutory or Regulatory Change**

None.

**E. Administrative Impact**

None.

**F. Fiscal Impact****1. Cost Impact**

None.

**2. Revenue Impact**

None.

**G. Taxpayer/Customer Impact**

## 10. In Other Words—What We Say in Other Languages

To help all taxpayers understand the Sales and Use Tax Law, we provide a number of publications in different languages. For example, many publications are available in Spanish, Chinese, Vietnamese, and Korean, including publication 73, *Your California Seller's Permit*, and publication 51, *A Guide to Board of Equalization Services*.

A general information leaflet, *Making Sales in California* (publication 33), is also available in other languages, including German, Hindi, and Japanese. For a complete listing of our translated publications, please visit our website at [www.boe.ca.gov/transpubs.htm](http://www.boe.ca.gov/transpubs.htm).

In addition to providing publications to readers in other languages, we have staff available in our Information Center who can provide assistance in Spanish. And, as needed, we can connect individuals to other staff members who are proficient in more than one language.

In the example below, taken from a poster displayed in our district offices, we tell readers how to contact our Information Center or how to go online to obtain translated publications.

El boletín se envía con su(s) declaración(es) de impuestos sobre las ventas y sobre el uso. Si presenta sus declaraciones solamente una vez al año y le gustaría recibir los cuatro boletines, por favor escriba a la dirección a continuación y pida que se le incluya en la Lista de Correspondencia #15 (Mailing List #15): State Board of Equalization; Mail Services Unit, MIC:12; Attn: Addressing Systems; P.O. ***Asesoramiento Sobre Impuestos, por Escrito***

Es mejor obtener asesoramiento sobre impuestos por escrito. Se le puede liberar de cargos de impuestos, multas o interés que se deban en una transacción si la Directiva determina que usted confió de manera razonable en el consejo por escrito de la Directiva con respecto a la transacción. Para que esta exoneración aplique, tiene que presentar una solicitud de asesoramiento por escrito, identificar al contribuyente a quien aplique el consejo solicitado y describir detalladamente los hechos y circunstancias de la transacción. Envíe su petición a State Board of Equalization; Audit and Evaluation and Planning Unit; P.O. Box 942879, MIC:40; Sacramento, CA 94279-0040.
